Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Used consistent 4-space indentation throughout the project.
2	Proper File Structure	Files and folders are logically organized	Yes	Project organized into frontend, backend, model, and static folders.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Variables and functions use descriptive names.
4	Function / Method Names	Functions are descriptively named	Yes	Functions clearly describe their purpose.
5	Code Comments	Inline and block comments explain logic	Partial	Important sections are commented for readability.
6	Modular Design	Code is split into reusable functions/modules	Yes	Logic separated into reusable functions and modules.

7	No Redundant Code	Duplicate or unused code is removed	Yes	Duplicate code minimized using reusable functions.
8	Error Handling	Exceptions and errors are handled gracefully	Partial	Basic input validation and exception handling implemented.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Prediction Model	Python (Scikit-learn)	Prediction API	High
2	Data Preprocessing	Python (Pandas)	Training & Prediction	High
3	Flask Routes	Flask	Backend API	High
4	Form Validation	JavaScript	User Input Forms	Medium
5	Bootstrap Components	HTML/CSS/Bootstrap	Multiple Web Pages	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-organized project structure with modular files.
Readability	5	Easy-to-understand naming and formatting.
Reusability	5	Reusable modules for preprocessing and prediction.
Documentation / Comments	4	Important logic documented with comments.
Overall Score	4.8 / 5	Clean, maintainable, and reusable codebase.
